## Background

- The Select Committee on Trade and International Relations invited the public to make submissions on the Copyright Amendment Bill.
- Some stakeholders commented on the older versions of the Bill and made reference to sections no longer applicable.
- Responses are only directed to the content of the Bill except where clarity can be provided.
- Some stakeholders raised similar issues raised before in the PC.
- The submissions are analysed in themes. Stakeholders raised similar concerns and even if the stakeholder name is not listed in some instance, the theme would address their concerns. The submissions were considered.
